## *Sewing Instructions, continued...*

2. As you cut the strips, lay out the quilt top on your design wall. This way, you will see the fabrics mixing together. You may want to replace some of strips. You do have extra fabric, so you can cut pieces from another strip or two if needed.

3. When you are pleased with the arrangement, start sewing the pieces together. Refer to the illustration, and start with the center square and the 2 1/2" strip. Sew them together using a 1/4" seam allowance.

5. Layer, quilt, and finish.

I quilted straight lines across the width of the quilt. I also cut 2 1/2" strips from the remaining fabrics, sewed them together into one long strip, and used them for the binding of the quilt.
